**Importance:** High

Good Morning Jason,

Ok that sounds great. I can set up a Teams Meeting, please advise if any others beside you, Jared Walker, Beth Steinhour and Dr. Jennifer Aurandt-Pilgrim will be attending from Marquis by name and emails. Once in receipt of Jared's agenda I will send out the invites.

I may invite our Fellows (Leah Rivera and Victor Schultz, copied above) who are providing support our Class VI Permit efforts.

Look forward to seeing the agenda and meeting with you all. Have a good rest of the day!  
Best,

Felicia Chase

Felicia,

Thanks for your response.

Our primary purpose is to put a face/voice behind our names and make sure we provide helpful support in your review of our permit.

I also like to ensure all parties understand our project's implications, namely that we will remove 250 X's more **biogenic carbon dioxide** than the world's largest direct air capture facility. We believe plants are a natural, efficient, and sustainable means of capturing carbon to combat our climate crisis.

I'll ask Jared to put a more detailed agenda together and email it ahead of our call. We'll likely have our Director of Environmental Affairs, Beth Steinhour, and our Director of Innovation, Dr. Jennifer Aurandt-Pilgrim, on the call as well.

Based on your availability, I suggest **3 pm CT on Wednesday, August 17**. Would you prefer Zoom, Microsoft Teams, Google Meets, or another platform?

Good Evening Jason,  
Please provide an agenda and availability for the meeting you are proposing. I am fairly booked this week and parts of next week, so I can be available after 2PM Wednesday, August 17<sup>th</sup> and the

rest of that week. I usually work a short day Fridays (until 1pm Central).

Thanks for reaching out.

Best,

Felicia,

I wanted to reach out and introduce myself and our family's business after learning that you are our 'GO-TO' contact at USEPA for our class VI Permit for Marquis Carbon.

Jared Walker, our Director of Carbon Removal, and I also left you a voicemail. Andrew Greenhagen suggested we connect with you after receiving our Notice of Completeness on 7/22.

We are excited to work with you as our team aims to remove more than 7 million tons of CO2 from our atmosphere over the next five years.

We are looking forward to talking with you whenever you get a chance.
